Art Unit: 3634

Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In line 1, "paid" is incorrect therefore rendering the claim indefinite.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3 (in so far as understood), 4,5,6,8,12 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Mulvihill, Jr. 5,560,497. Note support plate 18, mounting plate 16, support plate 18 has a recess in the center open to the top and bottom, nest pad 22 having slits therein.

Claim 2,7,9,10,11 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art of record does not teach nor does any combination thereof fairly suggest the ring as recited in claim 2.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Similar gun racks are illustrated by Lauve 5,454,931; Ramsdell 5,344,032; Walters 3,917,071.
